

Barry Roubaix 2020 waitlist registration process

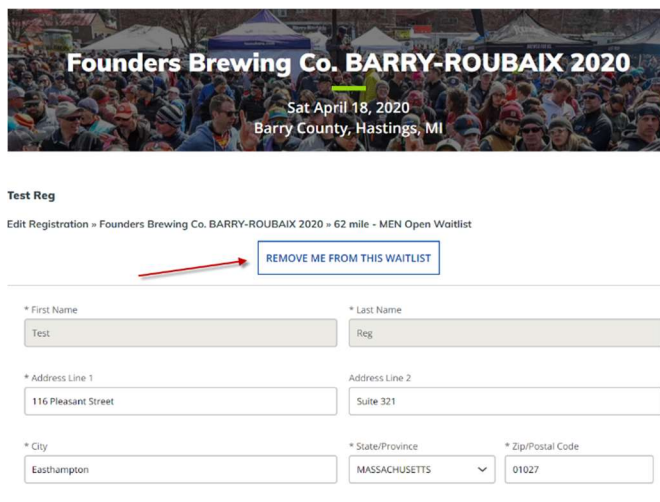

With the new race date announced; 10/10/20 and the event sold out, we wanted to pass on details of the wait list process.

1. Your existing waitlist registration(s) and place in line will remain the same for the new race date.
2. To review your waitlist registration(s), Follow the link to your registration in this email or log into your bikereg race registration.
3. To view your place in line. Go to our bikereg page and from the menu select "Who's registered" you can view your wait list category and see where you are on that categories list.
4. When a current racer transfers out, the first person in line in their same race category gets moved in to the race and their credit card will be charged.
5. We removed the \$10 transfer fee, so you'll only pay the registration fee

How to remove a waitlist registration:

If you no longer want to race on 10/10/20 (should a spot become available) or you have multiple race waitlist categories and want to remove "extra" waitlist registrations, follow these steps to remove a waitlist registration.

- Follow the link to your registration in this email or log into your bikereg race registration.
- At the top of the page select "remove me from this waitlist".
